1. INTRODUCTION **p. 2-3**

2021-2023 updated. The REAL Marathon swim Database.

via ''Global LEANDROS Marathon swim Ranking''.

A. Why the only updated Database? Because is updated with +16.373 (+37%) new entries of Marathon swimmers and totally updated with 1181 races. Includes also the other 2 Databases.

1875-2023
8,3% elite MSF swimmers
54% rest of Marathon swimmers

2021-2023 Ranking
37,7% new entries
"global LEANDROS"

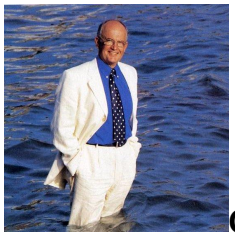
(1875-2023):Totaly 43.452 Marathon swimmers from 105 countries
Solo or Marathonswim races

B. Why reliable? Because it is based in worldwide official race Results only. It is for free. ''LEANDROS'' is a non-profit Marathon swim club. IMSHOF is interested!

C.Examples:1) Michael Read, ''the King of the English Channel'', is now 1st in 2 categories, instead of 2nd.

2) The part of the database referring to Abou Heif- ''The river Nile's crocodile'', is updated for 5 more years, as 16.373 others.

D. Who is the author? The English Channel swimmer



Giannis Kotsiopoulos, A.T. Engineer NTUA, nominated for IMSHOF member, President of ''LEANDROS'' Greek Marathon swim club, also author of the first ever ''Wetsuit Marathon swim Database'' e-book: https://archive.org/details/@giannis_kotsiopoulos/global-wetsuit-marathon-swim-database-1992-2023

2021(242 races) +2022(412 races+2023(527 races) = Three years of very hard work of mine, for the Ranking of "Global LEANDROS" GRAND PRIX. So every Marathon swimmer is evaluated, with no exceptions. Everyone is included to the new updated database., based only in official results. Part of this new Database is the above **excel** with the totally 43452 rows, each for every Marathon swimmer!

Notes for the surnames of this **excel** (Column A):

Colored text are the **16.373 new entries (37,7%)** of "Global LEANDROS" (2021-2023) Marathon swimmers.

Black are the 23467 names (54%) from Openwaterpedia (1246 of these were updated-yellow background)

Black **(bold)** text are the 3612 names from MSF (8,3%) for the elite Marathon swimmers (1387 of these were updated-yellow background)

Proud for adding +16.373 new entries of global Marathon Swimmers for the years 2021-2023, via our ''Global LEANDROS'' Marathon swim GRAND PRIX ranking. That means we added+37,7% of Marathon swimmers in the existing (MSF+ Openwaterpedia) DATABASE. All the 16.373 are included, in the official results of 1181 Marathon swim races around the world, published either in our site, or to the end of this e-book.

See the 164 photos of the elite Marathon swimmers of this Real DATABASE (top Club members, in every one of the 7 categories)!

Η Πρώτη Που Κολυμπησε Δίπλο Διάπλου Του Κορωναίου Κόλπου

Η Σοφία Ψηλόλιγνου γεννήθηκε το 1969. Είναι κολυμβήτρια και υπήρξε μέλος των εθνικών ομάδων νεανίδων και γυναικών σε απλές ποικιλίες για εθνικά πρωταθλήματα και τρεις τρίτες νίκες σε βαλκανιάδες. Είναι η πρώτη Ελληνίδα που διέπλευσε τη Μάγχη και μάλιστα δύο φορές, κάτι που δεν έχει επιτύχει άλλη Ελληνίδα. Ο χρόνος της ήταν 10 ώρες και 40 λεπτά – επίδοση που χαρακτηρίζεται εξαιρετική. Είναι η πρώτη μεταξύ όλων των Ελλήνων που κολύμπησε τον δίπλο διάπλου Κορώνη-Καλαμάτα, δηλαδή μια απόσταση 60χλμ.

Επίσης στις 17 Ιουλίου 2008, έγινε η πρώτη Ελληνίδα που πραγματοποίησε τον δίπλο διάπλου του Κορωναίου Κόλπου (Κασσάνδρας). Κολύμπησε τα 52 χιλιόμετρα της συνολικής απόστασης σε 19½ ώρες.

Η Σοφία Ψηλόλιγνου έχει κολυμπήσει σε δεκάδες σημαντικούς αγώνες ανοιχτής θάλασσας όπως τους διάπλους Βοσπόρου, Κορωναίου Κόλπου, Κεφαλονιάς, Μεσσηνιακού και Μαλλιακού Κόλπου. Είναι αγαπημένος της ΑΣΟΕΕ και μητέρα τριών παιδιών.

87 km in 30 ore

Ha nuotato per primo dalla Sicilia a Malta

LA VALLETTA, 28 luglio

Nicky Farrugia è diventato oggi il primo uomo ad aver compiuto a nuoto la traversata del canale di Sicilia. Il nuotatore maltese, non nuovo a imprese del genere, era partito ieri mattina da Punta Secca Ragusa ed ha raggiunto nel pomeriggio Gozo, percorrendo 87 chilometri in 30 ore e 20 minuti.

Farrugia, 24 anni, ha compiuto la traversata in una gabbia metallica per proteggersi contro i pescecani

Congratulations Maya!! for swimming the Molokai Channel: 28.5 miles from Molokai to Oahu in 27.5 miles. She has now done two of the Oceans Seven at age 15!!
From all of us at Whole Champion Foundation ... thank you for modeling how we can each 'do something' to make the world a better place... You are a huge force of awareness and raising funds for pediatric cancer. Six months ago, we featured you in our Whole Champion film trailer... we sure hope once we develop the documentary, we can interview you and share your magnificence in swimming and making a difference in the world of pediatric cancer. Way to go MAYA and TEAM MAYA Elizabeth Tung Chris Merhige You are all whole champs!!

Proof of life! She's got a killer cap tan, some bruising around her eyes, chafing on her neck, lash marks from jellyfish stings on her face and arms, and is a little sleepy(!). But otherwise intact!
I asked her what she thought of the swim: "Wonderful. I would do it again!"

Hi everyone,
Many of you asked if you could donate to Swim Across America, the organization Maya supports through her swims to raise money for pediatric cancer research at UCSF. You can do that here - and thank you! https://www.swimacrossamerica.org/site/TR/OpenWater/SanFrancisco?px=1517287&pg=personal&fr_id=6501

Irishman dives into Alibaug sea, reaches SoBo in less than 8 hrs

B B Nayak

Navi Mumbai: A veteran Irish swimmer, Ned Denison (61), traversed the 36km distance by sea from Alibaug to the Gateway of India in 7 hours and 51 minutes on Wednesday. Denison, who has completed 47 epic marathon swims across the world, was inspired to undertake the latest challenge by a fellow swimmer and friend from Nerul, Shubham Vanmali (22) who has the distinction of earning a place in the Limca Book of Records as the fastest Asian to cross the English Channel and the Straits of Gibraltar.

Vanmali had suggested that Denison try out this Indian sea route to add yet another milestone to his profile.

Denison achieved the feat under the aegis of the Swimming Federation of India which directed the Greater Mumbai Amateur Aquatic Association (GMAAA) to oversee the solo swim event. Pradeep Divgikar, honorary general secretary of GMAAA and other members were present at the finish line at Gateway of India to felicitate the swimmer.

DUBLIN TO ALIBAUG: Ned Denison with Nerul swimming champ Shubham Vanmali (left) who inspired him to take up the challenge

One of the organizing team members, Dhananjay Vanmali, said, "He is the oldest swimmer to have crossed the route at age 61."

Subodh Sule, an official observer of the event appointed by GMAAA, said, "Denison clocked a good timing which will give youngsters a run for their money."

Denison took the plunge into a choppy sea around 3.50am from Dharamtar jetty. "I picked up speed in the beginning and slowed down half way to again speed up in the last lap. My expected timing was below 8 hours and I have achieved it," said Denison. "It was quite interesting to try the Indian sea route which was a dream for some time...people of Mumbai are cordial."

CLDSA
The CLDSA congratulates Shubham Vanmali who is the first Asian swimmer to complete a False Bay crossing.
Shubham completed the swim in 9hrs and 46 mins with support from BigBayEvents, having endured many painful jelly stings on the way. He is the 6th solo swimmer to cross from West to East (Miller's to Rooi Els) and only the 12th to successfully cross the bay.
Shubham creates history by becoming the first Asian to Swim across the False Bay

England to Isle of Man: Fleetwood man completes 32-mile swim

9 hours ago

Adam Diver said it felt "amazing" to have completed the feat

A former Army captain has completed a challenge to swim from England to the Isle of Man.

Fleetwood's Adam Diver arrived at Port Mooar, in Maughold, at about 15:00 BST, having set off from St Bees, in Cumbria, at about 08:00 BST on Monday.

It is believed he is the first person to swim the 32-mile (51km) crossing.

The 46-year-old said it felt "amazing" to have completed the challenge, but admitted the swim, and particularly the jellyfish, had been "horrendous".

Marathon swim 2023 #4
Kish Lighthouse to Bray Co.Wicklow
1st June 2023

My fourth Kish swim and I still enjoy the buzz going out to the Kish lighthouse. It was a bouncy one, good few jellies but all small ones. Made an effort to slow my stroke rate down as the last three swims I was at 60 strokes per min, normally 54. Think that might of been subconsciously trying keep warm by swimming fast. It was a nice swim and I felt like swimming to Greystones but because no one had successful swam to Bray before, I gave it a go. The only negative on the swim was the finish in the harbour, the water was foul. I'd suggest finishing on the beach if anyone is thinking of swimming it. As usual my skipper James Mogan did an amazing job and Theswimming Bee with observing, feeding and photographs.. I thank you both for a really enjoyable swim experience. Ive a few weeks rest now before I swim the Bristol Channel at end of this month. But I don't like rest so maybe one more... Kish Lighthouse swims!

First leg of our Six Continents World Tour is in the books. While we were only in Cartagena, Colombia for about 24 hours it was enough to love this great destination. The swim was fantastic. We had great boat support and a super fun route that started at the city skyline and finished at Blue Apple Beach on Isla Tierra Bomba. Picture perfect conditions greeted us in the Caribbean Sea, other than the 87 degree water!
At the airport in Cartagena now headed back to North America for an early start tomorrow on World Tour Stage 2!

Day 2. Swim 2 in the books!
Swim Brothers USA
South America

Early morning start in Miami. Went with a really cool route around Virginia Key. We finished just over 11K in 3:21. A beautiful morning in the bay. The clear, shallow water meant we had a lot to look for the duration with hundreds of fish and even a couple rays. The currents got tricky at the end but we finished strong with great support from Wind Addict Miami and Captain George.
Special thanks to Marathon Swimmers Federation and Evan Morrison who is sharing this World Tour with us as our official observer in all six continents!
More video to follow later today!

We made the most of our 12 hours on the ground in Morocco. We had a really fun 10K coastal route starting near the town of Rabat about an hour drive from Casablanca. We had great boat support from local captain.
Start was rough and super choppy getting around the first turn but we had a steady tailwind and 73 degree water—best conditions we could hope for. Finished in 2:41. These coastal routes are fun with a lot to see, the towns going by on the coast and shallow enough water t
see the bottom and some marine life.
Back at the airport to head to Istanbul. Video to follow. Halfway! When we were doing our flag picture we were joined by two friendly locals!

11 up.
Two swim on two continents today!
Istanbul was awesome to see from the water. The quick recap is a solid 3:19 swim in Asia with good conditions most of the way and a strong current at the end.
2:59 in Europe the first half mile or so especially was amazing swimming past the heart of Istanbul.
More later. We have about 3 hours before we go to the airport so headed to the Old City to the stuff up close that we saw from the water!

Reunited and it feels so good! After nearly two years away, I finally swam in the Hudson River again this weekend. This swim is known as Stage Zero - Castelton on Hudson Bridge to Rip Van Winkle Bridge - a 21.7 mile route, just north of the original 8 Bridges Hudson River Swim. We didn't plan on an 8.5 hr swim, but as always, Mistress Hudson gave me a good challenge. Lots of lessons learned, and I now have plenty to work on as I head into the summer season.
Ice cold parking lot beers to my stellar support team for the day: Pilot/barge whisperer David Barra, Kayaker/cookie pusher, Shawn Lauriat, and Crew Chief/slice of PA style Eric Schall. And as always, huge thanks to Rondi Davies who plans all of my best Hudson adventures. So great to be back on the water with old friends.

LE DÉFI
Le Défi des 2 Caps a été imaginé par les athlètes Arnaud Chassery, 43 ans, et Nino Fraguela 58 ans, qui ont été les pionniers, en duo, de ce parcours inédit de natation extrême, le 17 juillet 2020, en 6 heures et 2 minutes dans une eau à 16°, sans combinaison. Un défi inauguré par la ministre déléguée chargée de l'autonomie Brigitte Bourguignon.
Cette traversée à la nage aller-retour de 30 km sur la Côte d'Opale relie les deux caps les plus septentrionaux de France, le Cap Gris Nez et le Cap Blanc Nez.
Ce défi de par sa complexité due au froid, aux courants violents et sa distance, est

238.CAN 29,5 Km 9-7-2023 Strait of Georgia, British Columbia

https://leandrosswim.files.wordpress.com/2023/08/238.xlsx

10 Ιουλίου στις 5:59 μμ.
Congratulations to Kim Hedges, who became the first non-Canadian to swim the Strait of Georgia in British Columbia yesterday. Kim's swim was documented by Jessi Harewicz, who made the same crossing in 2016. Kim swam a ~29.6km route from Schooner Cove on Vancouver Island to Welcome Beach on the Sunshine Coast. Elapsed time pending MSF ratification of 15 hours, 26 minutes. Well done, Kim and team!

SUMMER 2022 - 16 KM FROM ITALY TO FRANCE
REGISTRATIONS NOW OPEN FOR 2022 SWIM SEASON (MAY TO SEPTEMBER)
Swim across the Bonifacio channel in this 16K lifetime achievement crossing from Sardinia (Italy) to the French coast of the island of Corsica! You'll start on the beach of Rena Bianca, Sardinia (Italy) and cross to the beach of Punta Sperone, Corsica (France) across a stretch of blue Mediterranean Sea linking the two. We have helped the first American, Mexican, and Brazilian make this crossing, as well as the world record holder. Join the ranks!
Your crossing will be overseen by Italian captain Tommaso Munatoni. In order to consider booking the swim crossing the Bocche di Bonifacio, please plan accordingly to allow 5 days, during which you will stay in the beautiful town of Santa Teresa di Gallura on Sardinia. Be aware weather and sea conditions may vary suddenly, requiring adjustment of the date of the swim.
While there, practice swims are encouraged and we will provide you with training guidance and places to swim.

Γιάννης Λαφαζάνος

Η προσπάθεια που έγινε για πρώτη φορά στην Ελλάδα στέφθηκε με επιτυχία.
Πραγματοποιήθηκε κάτω συνθήκες πολύ ζέστης ,ευτυχώς ήρεμης Θάλασσας ,αλλά μέσα σε ένα περιβάλλον που καταστρέφεται και μαζί του "εξαφανίζεται" το κλίμα που γνωρίζαμε και οι ζωές και οι κόποι όλων μας στην Ελλάδα(οι πυρκαγιές του καλοκαιριού,οι πλημμύρες του χειμώνα)
Αναφέρομαι στο κολυμβητικό διάπλου Ζακυνθος (Αργάσι) – Πελοπόννησος (Αρκούδι) – Ζάκυνθος(Αργάσι) την Παρασκευή 21/7/2023
Βρέθηκα στο νερό νύχτα στις 4:45 στο Αργάσι και επέστρεψα μετά από 15,5 ώρες κολύμβησης στις 20:15.
Το πρώτο μέρος του αγώνα μέχρι το Αρκούδι της Πελοποννήσου πήγα σε 7 ώρες και 38 λεπτά (τα 18799 μετρα)ο ρυθμός ήταν 2,5 χιλιομετρα την ώρα
Στο Αρκούδι εκανα ένα 5λεπτο διάλειμμα μέσα στο νερό για να βάλω κρέμες και αντηλιακά και αμέσως στράφηκα προς την Ζάκυνθο για να προλάβω τον απογευματινό αέρα που βάζει στη περιοχή.Ώρα αφιξης στο Αρκούδι 12:24.
Η επιστροφή ήταν λίγο δύσκολη ,όπως όλοι οι γυρισμοί εκεί που αγαπάς.
Χρειάζεται υπομονή,επιμονή και υπέρβαση.
Τα πρώτα 3719 μέτρα της επανόδου μου έπεσε ο ρυθμός μου (1,8 χιλιομ την ώρα)
Επειτα τα υπόλοιπα χιλιόμετρα της επιστροφής κατάφερα και ανέβασα ρυθμό (2,2 χιλιομ την ώρα) και έφθασα με την βοήθεια των συνεργατών μου στο Αργάσι στις 20:15
Θέλω να εξάρω σε αυτό το σημείο τη βοήθεια του Στέργιου Λεόπουλου ,που είναι απουδαίος κολυμβητής ανοικτής Θάλασσας.
Αν δεν ήταν κοντά μου στη τροφοδοσία μου απο το σκάφος και αρκετά χιλιόμετρα μέσα στο νερό κολυμπώντας μαζί μου ,δεν θα τα είχα καταφέρει.
Χαρακτηριστική του απάκια όταν με καλούσε για τροφοδοσία: "Παιδί απο τα Αφαρα ελα να κάνεις μάμ"
Χιούμορ,αστείρευτη ενέργεια και εγρήγορση καθόλη τη διάρκεια του αγώνα
Επίσης ενας άλλος άνθρωπος που έπαιξε σημαντικό μέρος να τα καταφέρω και μάλιστα γρήγορα είναι ο Νίκος ο Ρεπανάς ,προπονητής μαραθωνίου κολύμβησης απο την Καλαμαρια
Οι οδηγίες μαζί με τα προπονητικά του πλάνα με κράτησαν σε ένα σταθερό τέμπο στο 90% του αγώνα
Δεν ξεχνώ τη βοήθεια του Πάνου Μπαντουβάνη και του Αρη Καραμπά ,δύο απουδαίων κολυμβητών μαραθωνίου κολύμβησης στην Ελλάδα.Ετρεχαν μέχρι την προηγούμενη μέρα για να έχω κατάλληλο φωτισμό την νύκτα που ξεκίνησα
Θέλω να ευχαριστήσω το Σπύρο Ποταμίτη μαζί με το φίλο του Σπύρο που με το σκάφος Calypso με συνέδραμαν στην προχθεσινή προσπαθειά μου
Φυσικά την οικογενειά μου που με βοηθά και στηρίζει ,όλους εσάς που μου ευχηθήκατε με όλους τους τρόπους καθώς και τον Θεό και τους Αγίους που άνοιγαν το Θαλάσσιο δρόμο που ακολούθησα
Ευγνωμοσύνη για όλα ,γιατί μόνος σου δεν πάς πουθενά ,ενω με βοήθειες πάντα ανοίγεις δρόμους και προχωράς.
Αυτό το μήνυμα μου έδωσε ο αγώνας της Παρασκευής 21/7/2023
Νά μην ξεχνώ,να ευγνωμονώ ,να λέω ευχαριστώ,να είμαι έτοιμος να προσφέρω.

MENORCA MALLORCA: CONGRATS TO OUR EXTREMIST SWIMMERS!
8/7/2023
Last Tuesday 1st of August, 3 of our amazing swimmers, V Emma Vockins (Reading, UK), Pere Dalmau (Mataró) and Jeremías Mateo (Granollers), swam from Mallorca to Menorca. No more and no less than 37.8km. And in a great time: 12 hours and 24 minutes. Spectacular!
Although it was initially planned to make the journey from Menorca to Mallorca, the weather conditions made it advisable to make the attempt the other way round: from Cap des Freu (in Mallorca) to Far d'Andrutx (in Menorca), from 7.32am to 7.56pm.
More than half a day swimming to fulfil their dream. Proud to work for you, a lesson in swim addiction! Congratulations our friends!

Tomorrow on 5 August, I am going to participate "Sheikh Kamal 50 km Jamuna Swimming-2023" at Sirajganj, Bangladesh. For the first time i will try for such a long distance open water swimming. A little bit worried but completely hopeful. I wanna complete another mission. Wanna check my ability and endurance. Keep me in your prayer!

YANA LOHVINENKO: AN HEROINE IN CAP DE CREUS!
8/9/2023
The sea is capricious. Jellyfish and currents don't warn, they just appear! This is what happened on the 8th of August during the attempt of Yana Lohvinenko, a Ukrainian swim addict more than prepared, to reach the Cap de Creus challenge: swimming from Port de la Selva to Roses. An unexpected and very strong current against from Cap de Creus to Cadaqués made Yana's dream impossible.
Nada el Món, with Yana's own approval, activated plan B and the challenge was completed in Cadaqués, specifically at Llaner Gran beach. From Port de la Selva to Cadaqués, 19.8km completed after 10 hours and 19 minutes swimming like a true heroine.
Yana has been an example before, during and after the swim, congratulations champion!

Additional information about the swim
The swim started off flat calm, lovely morning, the wind started to pick up half ways through and it began to get choppy, then it got lumpier as the wind direction had changed and was coming straight at us, which slowed down the swimmer. The swimmer was happy out during the swim and enjoyed it. The day started off very overcast but the sun came out towards the end.

Additional information about the swim
Dave (Swimmer), Andrew (Observer), Aoife (Crew) and Rory (Pilot) met at Crosshaven boat yard at 17:00 on a nice warm sunny evening. After loading the boat we proceeded to the swim start. The original swim start was due to be Rocky Bay but due to sea conditions a safety call was made to start the swim in the shelter of nearby Robert's Cove. This meant that Dave had to swim the best part of 400m to the beach to start the swim as the cove was too shallow to bring the boat all the way in (hence the photo of Dave from a distance at the start, that's him in the middle of the photo clearing the waterline). As the swim progressed sea conditions calmed and Dave was steady as a rock throughout with consistent stroke counts. The light faded as we neared Crosshaven along with encountering the hardest part of the swim with the currents slowing pace as we rounded Camden Fort Meagher heading towards the Pier at Currabinny. A great swim by Dave finishing on the Pier in 3 hours 21 mins.

386.UK 20 Km 8-9-2023 half English Channel crossing

https://leandrosswim.files.wordpress.com/2023/10/386.xlsx

Chloe McCardel - Marathon Swimmer

"There's no place like home" ❤️❤️

Yesterday, I finally returned to swim the English Channel after a two year hiatus. Last time I swam in this area of the Channel was my 44th Channel swim!

Those of you who have been following me for a while will know that I could never stay away for long 😉

The swim was a "Half Channel Swim" starting within 400m of the French border within the Traffic Separation Scheme (TSS). The swim will be submitted for ratification.

I swam a straight line distance of [redacted]. Of course my track with the tides was longer (34km). I was averaging 3.1km an hour in actual swim pace. The exclusive time having fresh. Check out the last image for my track!

I am so excited to be able to guide YOU on your own half channel solo or relay swim from 2024! Send me a msg and ask me how today 🙏.

This swim is for you if you:

- You want a training hit out before your booked future Channel full swim, including practicing feeds whilst treading water, swimming next to a large vessel, swimming at your expected "Channel Pace", rather than slow aerobic swimming for the sake of it, achieving your official cold water Channel qualifier.
- You want to "test the waters" before booking a full swim in the future (see skills above which you can try out).
- Want to swim the Channel but have no interest in the time or financial investment of a full channel swim.
- Want to achieve more than completing a relay of the Channel.
- Want to swim the Channel but don't want to wait 2 years for a Position 1 slot!
- You want Chloé and Roy supporting you on your swimming journey and crewing your swim.
- You want FREE access to a 3 day cold water camp, run by Chloé and Roy, in June 2024!
- You want to go on an awesome adventure with your swim buddies 💜💯
- You want to support the Channel Gawes rebuild project: £100 from every solo booked and a minimum of £25 for every relay swimmer will go directly towards the rebuild ✅🙏

Thanks to my amazing skipper, crew, mentor and of course Roy! 🙌

Can't wait to do it all again next year... I am thinking I'll do it backstroke!!

What are your thoughts?

BRIDGES ARE FOR WIMPS!
Swansea to Ilfracombe
Swansea to Ilfracombe is the longest route swum between Wales and England, with a distance of over 26 miles!! It was first swum by Gethin Jones in 2009. In 2016, Sian Clement became the second person and first female to swim the route knocking an incredible 7 hours off Geths time!
In 2021 a non ratified swim (wetsuit solo) made it across and in early 2022, a relay team made it from Ilfracombe to Lighthouse Island, just off the Mumbles and in September 2022, two people swam solos in one day; doubling the list! This route really really needs some more names adding to it; will you be next?!
This route is the one adopted by Guinness World Records for the "fastest Bristol Channel Swims" as it is closest in distance to similar channels around the world (English and North Channels for example).

Start und Finish: Strandbad Klagenfurt

10 km Olympische Distanz:

Eine Herausforderung für Open Water SchwimmerInnen, die ihre Grenzen ausloten wollen!

Die Route führt entlang der 5 km Distanz, wird jedoch zweimal zurückgelegt.

Auf der Strecke befindet sich eine Verpflegungsstation für die SchwimmerInnen. Angeboten werden Iso-Getränke, Sportgelee, Sportriegel, Bananen.

17 km Woerthersee-Swim:

Die Open Water Distanz für erfahrene SchwimmerInnen, die den Wörthersee bezwingen möchten!

Die Strecke verläuft dem Ufer entlang, die Gruppe der SchwimmerInnen wird von mehreren Begleitbooten unterstützt und gesichert. Auf der Strecke befinden sich drei Verpflegungsstationen (Boote) für die SchwimmerInnen. Angeboten werden Iso-Getränke, Sportgelee, Sportriegel, Bananen.

34 km Woerthersee-No Limit:

Die Distanz für ExtremschwimmerInnen!

Jeder, welcher sich dieser Herausforderung stellt, wird von einem Boot begleitet, dass sich dem Tempo der SchwimmerInnen anpasst. Es ist erlaubt eine eigene Begleitperson auf diesem Boot mitzuführen. Die Verpflegung wird vom Boot aus zur Verfügung gestellt. Mitgeführt werden Iso-Getränke, Sportgelee, Sportriegel und Bananen. Selbstverständlich kann eigene Verpflegung mitgeführt werden.

MERCER ISLAND MARATHON SWIM 2020
After much deliberation, we regret to announce that NOWSA will not be hosting the Mercer Island Marathon Swim in 2020. It has been brilliant to watch the event develop over the past three seasons, and appreciate the support from everyone who swam, observed, kayaked, boated, or otherwise supported us to date.

• Exactly a year later on November 13th 2023, she became the first person to swim around Isla Danzante near Loreto on Mexico's Baja California, finishing in 4 hours 42 minutes.
Steels knows very much how difficult harsh and challenging conditions can be in the open water, but she acknowledged the circumnavigation swim in the Loreto Bay National Park was a very tough one due to strong currents and nasty jellyfish. Sometimes, she ended up hugging the shoreline to

Mayra Santos Pioneers a Circumnavigation Swim around the Golden Island

Leave a Comment / By DNOWS / December 13, 2023

Brazilian swimmer Mayra Santos dreamed of her goal and lived her dream yesterday on December 12th when she pioneered a 32 km circumnavigation swim around Porto Santo, the smallest inhabited Portuguese island in the Madeira Islands, popularly nicknamed the Golden Island.

Her 11 hour 19.52 minute swim – called '*Volta a nado à Ilha Dourada*' – started at 7:00 am and finished at 6:19 pm at Praia da Fontinha by the Porto Santo Pier where locals and supporters cheered her on.

Today, I had the rare privilege of being the official observer of Tracy's 7.8-mile swim in the frigid, 64° waters of Lake Caburgua. It's my first time accompanying her on one of her long swims. I sat in the motorboat, taking notes for Open Water Swim Federation report while she plowed along for over 4 hours. Way to go, Tracy!

Alexander Sciammarela Sant'Ana Completes A Fast Travessia do Leme ao Pontal

Steven Munatones 02/17/2022 open water swimming No Comment

Adherbal de Oliveira,, president of the Leme to Pontal Swimming Association, reported that Alexander Sciammarela Sant'Ana completed the 36 km Travessia do Leme ao Pontal in 8 hours 54 minutes.

"Sant'Ana wrote his name in the history of the Travessia as the first military firefighter and the first swimmer in the interior of the state of Rio de Janeiro and the city of Campo dos Goytacazes to compete the swim.

His swim from Leme to Pontal started at 2:19 am with the expectation of good winds, good swells, and a favorable current. As soon as he started his swim, the good conditions were continued and Alexandre flew along the course with a water temperature of 25°C. Swimming an average speed above 4 kilometers per hour, he reached the halfway point in the course at 3 hours 40 minutes. The water was crystal clear and Alexander had the opportunity to swim with plankton

Swimming from New Norfolk Bridge to Bridgewater Bridge
1. Stay on town side until apex of first bend.
2. Cross to other side.
3. Stay on eastern side until bend before Boyer.
4. At Boyer bend across to the Western side.
5. Stay on the Western side until the bend before Bridgewater Bridge.
6. Move into mid channel.
Stay away from those areas in satellite picture that show sediment deposit. This is where the river is moving at its slowest and deposits sediment that it cannot hold in suspension at a lower speed.
Swimming from Bridgewater Bridge to Tasman Bridge
1. Head to Green Point.
2. Stay mid navigation channel between red and green markers all the way to the oil wharf.
3. Head towards the old concrete butt from original floating bridge on the Western shore.
Take the shortest route from oil wharf regardless of incoming or outgoing tide. There are eddies along the Western shore near the rowing club that can go either way.
Best to keep clear.

Catalina Channel Swimming Federation
3 Φεβρουαρίου στις 6:01 π.μ.
Catalina Channel Swimming Federation is delighted to congratulate Steve Stievenart of Wimereux, France, on the first successful crossing of the Catalina Channel for 2022. Stievenart completed his swim in the unofficial time of 13:41:13. Prior to his swim only six swims have previously occurred between December and February. The very first documented swim across the Catalina Channel was George Young's swim January 15-16, 1927.
Stievenart has swam the English Channel four times (and one of those was a two way crossing) since 2018. He's swam one single loop around Manhattan, and he's completed a double circumnavigation of Manhattan. In 2019 he also swam around Jersey. In August 2021 Stievenart swam Loch Ness, and in September he swam the North Channel.
Joining Stievenart on his adventure was King of the English Channel, Kevin Murphy, Frederique Vandrepote, Kathy Bates, Patricio Libenson, and Dan Simonelli. Don Van Cleve and John York were official CCSF observers. The water temperature was 58F from start to finish.
Congratulations Steve on your successful swim, and on completing the Triple Crown of Open Water Swimming.

Lake Taupo swims

Lake Taupo is the largest lake in New Zealand. The long axis of the lake (NE / SW) was first swum by Margaret Sweeney in 1955. A slightly longer route, 40.2 km between Taupo and Little Waihi, was subsequently established as the canonical lengthwise route. Philip Rush and Sandra Blewett were the first man and woman (respectively) to complete two-way lengthwise crossings (80.4 km).

An unofficial list of Lake Taupo swims is maintained by Anna Marshall - see FortyPointTwo. Lake Taupo is one leg of the New Zealand Triple Crown.

One of the five major swims that Renato Ribeiro of the Big Island Swimming Association organizes is the 16 km Freguesia de Santana – Pouso Challenge Swim around Ilha Grande, an island located 2 km off the mainland of Rio de Janeiro, Brazil. Ilha Grande it was used as a penal colony between 1903 and 1990 and is a UNESCO World Heritage site with 113 beaches along its coast.

On March 8th International Women's Day, Monica Calderon, a Colombian swimmer, completed the prison island swim in 5 hours 04 minutes. Ribeiro said, "*This friendly, humble Colombian extreme warrior has an inner strength and swims with such mastery. Congratulations to this warrior of the sea, of life, of everything, may all women feel represented and honored by her achievement.*"

A DIP IN THE OCEAN

Tackling 34km of icy cold water by swim

By Craig Bishop

14 Mar 2022

A 18-year-old boy has just smashed the record for what is fast becoming South Africa's very own 'English Channel' – the icy, and toothy, 34km False Bay swim – and joined a very exclusive club in the process.

Joburg schoolboy Kyle Stephens should have been writing his IT and accounting exams that Tuesday morning. Instead, he was in the middle of the Atlantic Ocean surrounded by jellyfish and seals, watching the mountains at Millers Point slowly fade into the distance, and wondering why the faint outline of the mountains at Rooi Els was taking so long to get nearer.

Stephens knocked a whopping 30 minutes off the previous record of eight hours and 39 minutes, held by extreme athlete Ryan Stramrood, who has done 100 Robben Island crossings, some of them doubles, as well as 100 miles in the Antarctic and a Bering Straits relay.

South Africans, it seems, are queuing up to tackle what some are calling "the African Channel".

Other False Bay records have been set recently, including the oldest man to complete the challenge, Simon Ines (62), and the first two-person relay crossing, by Liberty's head of wealth Georgina Smith and Business Results Group CEO Kirsty Thompson. The two women raised R30,000 for the Swim for Rivers charity, hearing only the night before their swim that a close friend and Swim for Rivers' organiser Craig Doonan had died.

Mark Makes Molokai

Steven Munatones 06/08/2022 open water swimming No Comment

After Mark Sowerby of Australia successfully completed the 34 km Derwent River Big Swim in Tasmania in 8 hours 55 minutes in March, he flew off to Hawaii to attempt a 42 km crossing of the Molokai Channel from Molokai to Oahu.

Earlier today, the 51-year-old completed a solid 14 hour 23 minute crossing of the channel, escorted by Michael Twigg-Smith who summed up his swim, *"We started at Papohako Beach [on Molokai] at 5:20 pm last night and ended at Alan Davis Beach [on Oahu] at 7:43 am this morning. At the end, there was a little bit of current from the north, but other than that, there were no major jellyfish stings, no sealife sightings except for some humpback whales.*

The most remarkable thing about Mark's swim was his time of 14 hours 23 minutes because his English Channel crossing seven years ago was 14 hours 24 minutes."

Sowerby said, *"Captain Mike and his team of Shelley, Riley, Kainoa and Chris were absolute stars. They were professional from the start. It's always nice to know when you hit the water the support team have so much a experience. They are superb kayakers with plenty of fully charged Shark Shields.*

Auckland marathon swimmer makes history in Northland, Poor Knights Islands trip
Jono Ridler made history on the weekend as the first person to swim from Matapōuri Beach to the Poor Knights Islands and back again.
It was a memorable first trip to the islands for the 32-year-old, who completed the 45km feat off the Tutukaka coast in 13 hours and 20 minutes.
But the double-crossing wasn't about etching the DHL Supply Chain project manager's name in the history books.
"If I'm honest, I haven't really focused too much on that," Ridler said. "It's a cool thing, but for me it was more about the challenge itself."

Event notes

SCAR SWIM doesn't happen without a dedicated army of kayak volunteers. We supply and transport the kayaks. Swimmers are traveling from a variety of countries and US states to participate in this four day stage swim which has been ranked in the TOP 100 OPEN WATER SWIMS IN THE WORLD BY World Open Water Swimming Association. Choose the day or days you want to volunteer:

Day 1: Saguaro - 9.5 mile. Wednesday, April 27. Morning start.
Day 2: Canyon - 9 miles. Thursday, April 28. Morning start.
Day 3: Apache - 17 miles. Friday, April 29. Morning start.
Day 4: Roosevelt - 10k with nighttime finish. Saturday, April 30th. Late afternoon start.

ενθουσιασμένος στην τοποθεσία Sea of Galilee.
30 Μαΐου στις 9:49 μ.μ.
A HUGE swim today at the Sea of Galilee, by a wonderful humble and strong swimmer.
Kathleen Wilson from Charlestone, SC, USA had completed a 2Way length crossing of the lake, 41 km, in a time of 16:45 h, pending ratification.
She has become the 4th ever to complete this feat.
Kathleen started her swim on Sunday night 10:11 PM from Zemach, and swam northbound all through the night. She reached Capernaum at sunrise, then started the return leg that ended back at Zemach on Monday, May 30th at 2:56 PM.
"This swim of just over 25 miles marks my 25 years in marathon swimming", she mentioned after the swim.
What an Amazing, Super swim by Kathleen!!!

A MAN will attempt to swim the Bristol Channel four times this summer for charity.
Phil Warren, 51, of Whitehouse Road, Woodcote, will take on four separate routes between June and September, increasing the distance each time.

Steve Munatones swam 25Km yesterday from Cabrillo Beach to Avenue I in Redondo Beach. He left at 6am and arrived at 12:30pm. He was escorted by Quinn Fitzgerald. Both were instrumental bringing the Redondo Beach WOWSA event back in 2019.
This was a demonstration to showcase this swim venue as the 2028 Olympic 10k women's and men's 10K. Where could there be a better backdrop than the Palos Verdes Peninsula and finishing in King Harbor?
Do you know how many events are planned for the South Bay when the 2028 Olympics are held in LA? Answer: Zero!
Do you know how many events were in the South Bay during the 1984 Olympics? Answer: Zero!
We need to change that, and PV to Redondo Beach is the perfect course. All the athletes agree!

Stève Stievenart Achieves The Double Triple Crown
Steven Munatones

Stève Stievenart, 45-year-old Frenchman from Wimereux, completed a 28 hour 45 minute 48 second two-way crossing of the Catalina Channel today to complete the Double Triple Crown (a two-way English Channel crossing, a two-way Catalina Channel crossing, and 20 Bridges double circumnavigation swim).
Stievenart became the first man to complete the Double Triple Crown after Courtney Moates Paulk became the first person in August 2021. He was the 13th person in history to complete a two-way Catalina Channel crossing [see list below].
What was most incredible – and quite possibly a record in the annals of channel swimming – is that Stievenart completed his double crossing in a very fast negative split. His first leg from the California mainland to Catalina Island was completed in 15 hours 51 minutes 1 second, but his second leg from Catalina Island back to the mainland was completed in 12 hours 54 minutes 47 seconds – nearly 3 hours faster, which is believed to be an unprecedented time difference between the first and second legs of a major channel double crossing.

Battle of Randé
With the idea of touring and enjoying a unique landscape, we propose a swim crossing of about 27 km in length. Starting from the Cies Islands, in the National Park of the Atlantic Islands, it will cross the entirety of the Vigo estuary, passing under the Rande bridge to finish on the island of San Simón, in the Redondela town hall.

Capri-Napoli is one of the most fascinating and difficult competitions in the world. Since 1992, holds a long distance world title, now the crossing swimming race Capri-Napoli is a "FINA World Grand Prix" leg over a distance of 36 km as the crow file distance.
The Gulf of Naples is the fascinating "race field" of this contest starting normally from Marina Grande at Capri (with only four exceptions: 1978 from Marina Piccola, 2010 from the Blue Grotto and in 1981 and 2017 with a race course below the coast in Naples for the prohibitive weather-marine conditions) and finishing to the sea-front in Naples assigning the world title. In a single race, until 1992. The 2017 edition

In the world of #MarathonSwimming the extraordinary Elizabeth Fry needs no introduction. She's done so many incredible swims and has given so much to the sport and worthy causes. Solo Swims of Ontario is honoured and so very delighted to have her back swimming with us, on what looks to be a perfect day to cross #LakeErie on the 20km Eastern line. Liz got underway at 10:45am with pilot Christine Arsenault and veteran SSO swim master Colleen Shields, assisted by Katharine Borczak (who herself had challenging conditions on her Erie crossing last season) and Geoff Farrow (no stranger to crew responsibilities on long crossings!)..
Swim on Liz!

Feeding (15km/10km swimmers)
This will be set up on land, it is your responsibility to provide your own food. Usually people feed after each 5km so you can pass the timing point at the same time. Swimmers can, however, get out anytime they want as long as they don't pass over the timing mat except on the 5km, 10km split timing point, of course.

Young People are amazing! To encourage our future World leaders to enjoy and embrace open water swimming there will also be 10-15yrs swims - 1.5km & 5km held within the adults race. Note their overall positions will not be included in the adults (16+) race.

Parking: FREE - Ohio Avenue (M50 2GT) - 10mins walk, PAID - Lowry Outlet Car Park (M50 3AH) - 2mins

Hey all! Ryan apologizes for not posting on Instagram and Facebook - he thought he was. But between worrying about me and limited wifi, he didn't realize it wasn't going to both. My fault for not checking the default ahead of time.
We are headed to bed now, early flight home tomorrow, and I'll update when we get home.
I am well, other than an entire body covered with jellyfish stings. ... Δείτε περισσότερα

The Her Spirit Summer Solstice Swim is a celebration of mid-summer and the longest day. What better way to celebrate than the ultimate challenge of starting your swim as the sun rises (swim starts approx 5:30am). Choose from a range of non-competitive distances 1k to 10k. Each participant will receive a Summer Solstice finishers medal on completion of your swim.
The event will take place on the 19th June 2022 at Spring Lakes, a stunning water sports and leisure park in Long Eaton, Nottingham. Spring Lakes has two beautiful lakes which swimmers will get to experience during the event.

Kudykina Gora 2022
swimcup | TYR
16-17 July 2022
On July 16-17, 2022, the Open Water series will be held in the upper reaches of the Don!
These days on the territory of the famous natural park "Kudykina Gora" open water swims at distances of 500, 1500, 3700, 5800 meters, as well as a 10,000-meter marathon will take place. At the same time, the swims will follow the course of the Don River, which in these places reaches 2 km / h - therefore, athletes will spend much less time to overcome their distances than in still water.
What awaits you
The start program is swims at Light 500 meters and 1500 meters, Classic 3700 and Ultra 5800 on Sunday, and Ultra 10,000 meters on Saturday. The start of the distances is in different places, the finish line is on a sandy beach not far from the main local attraction.
What to see nearby
This is probably the most unusual location of the swimming season – read about the Kudykina Gora Nature Park in the article by our friends from the wonderful travel media Perito Burrito.

Muller and Hughes claim LEN Open Water Cup titles

France's former world champion Aurelie Muller was the star of the fourth leg of the LEN Open Water Cup in Belgrade, winning the women's 10km event, with British youngster Nathan Hughes claiming the men's title.

Medallists, men:

1. Nathan Hughes (GBR) 1:55:47.7; 2. Tamas Farkas (SRB) 1:55:51.4; 3. Joseph Deighan (GBR) 1:55:59.8.

Medallists, women:

1. Aurelie Muller (FRA) 2:02:30.4; 2. Katja Fain (SLO) 2:04:06.0; 3. Ella Dyson (GBR) 2:04:14.7.

The last time Aurelie Muller came first in a major open water race dates back to 2017 – that time in a sunny morning, on 16 July at Balatonfured, she retained her world title and seemed to be the ruler of the sport.

Five years on, on 17 July, in a sunny morning in Belgrade, she got another gold at last, in the LEN Open Water Cup. The five years in between was anything but cementing her ruling status.

A Roundup of Long-Distance Swims in the UK for Summer 2022
From a woman swimming the length of the UK to the first crossing from England to the Isle of Man, here are some marathon swims of note this summer.

Jasmine Harrison: The length of the UK
Jasmine Harrison is embarking on a three-month challenge. The 22-year-old wants to swim 1,448km from Land's End to John O'Groats this summer. The route is popular with runners, hikers, and cyclists, but very rare in the swimming world. Only two people have completed the swim before, both men.

In 2021, Harrison became the youngest person to solo row across the Atlantic in the Talisker Whisky Atlantic Challenge. She is an even better swimmer. She only picked up rowing for that one ocean crossing.

She will swim up the west side of the UK, where there is less traffic. This will also take her with the waves rather than against them. She will stay 1.5km offshore for up to 12 hours a day during her swim. However, she will swim in six-hour blocks to go with the tide.

Adam Diver: Swimming to the Isle of Man
On July 22, Adam Diver will try to become the first person to swim from England to the Isle of Man. Diver, 45, is an experienced triathlete who represented Great Britain at the 2021 Europe Triathlon Championship. Though he has been swimming for many years, he has gradually increased his open water distance so that he can tackle the 51km crossing. He came up with the idea with his son during lockdown when they were coming up with ways to visit his parents on the Isle of Man.

He had to plan the timing of this swim to the hour. The tide tables suggested that July 22 would be the best possible day. "There is a neap tide," he told the BBC, "so it will be lower and the current will not be as strong."

The Irish Sea is notoriously choppy because the tides are very strong. Diver plans to swim in a six-hour on, six-hour off pattern because of these tides. Unlike those who do the English Channel, Diver will wear a wetsuit.

Greg Whyte: The length of the Upper Thames
On July 11, Greg Whyte will swim the 218km length of the Upper Thames. He hopes to finish in

Late to post, but here's our finish at Yokohama Bay around 10am Hawaii time today. Check out our sea legs LOL . Thanks to our friend Steven who lives on Oahu for joining us (black cap)! Took 3 hours and 40 minutes. We battled currents and wind, but it was so beautiful and worth it. Swim in state #1 is done. Now off to ALASKA!

We took a boat ride to the California side of Lake Tahoe for swim #4! Air temp in the 40s.
Water temp was colder than the Nevada side... like 61 degrees. Finished our early morning swim with the sunrise!
Now we need to catch a flight to PORTLAND for state #5!

Good Morning from OREGON! We're about to get in the water and do our longest swim stretch of this incredible trip!
10.5 miles down the Willamette River following the Portland Bridge Route swim.
This is our first city swim of the trip and our first night in the RV.
Trying to activate the route tracker so you can follow along while we're in the water. Is it working for you? https://track.rs/zemaitisOR/

Really glad these fins belong to dolphins!
We started our swim before dawn, so it was still dark when we noticed fins below us...

TWO MORE SWIMS LEFT! We are now on our way to UTAH & the plan is to finish in ARIZONA today!
For our Colorado re-do, we finished swim 48 under the moonlight with calm conditions last night at McPhee Reservoir which thankfully had high enough water levels to accommodate Marathon Swimmers Federation rules. We tried John Martin Reservoir Thursday, Aug. 11, but water levels were so low, we couldn't complete that swim. #ultimateswimathon #swimbrothers #openwaterswimming

Swim Course: 10 x anticlockwise large laps of the lake, keeping the swim buoys on your left. The lake is gravel filtered and approximately 6 metres deep, weed is usually not too much of a problem but during long bouts of hot weather this can appear in pockets. Typically, the temperature at this event is around 19-21°C.

There are not enough words to thank all the amazing volunteers who contributed to another amazing 3RMS here in Pittsburgh!! As a Race Director, it gives me such joy for people to visit Pittsburgh and learn more about our beautiful city – from a very different angle on the water!
A very special thank you to Judy Flynn Caves for hosting our pre-race dinner, Greg Furer for being our rock to guide us, CJ Heynes, his wife Jamie Morath Heynes and their boys for delivery of lunches, Corey Berkey for being our additional guide boat and to all of our amazing kayakers, land volunteers and my family for organizing a beautiful post-race banquet at my Aunt's home on the North Side!! To Chief Linn and his team at the Pittsburgh River Rescue - thank you for always supporting and being our emergency contact for our crazy adventure!!

SWIM FOUR: ILFRACOMBE TO SWANSEA (AKA "THE MONSTER")

Phil met his pilot boat at 8pm on Monday 19 September at Swansea harbour, before heading across the channel to Ilfracombe. "When I arrived, we swapped to the main pilot boat, sorted the kit, applied anti-jellyfish cream, suncream (even though it was 10pm), ocean lube and grease, then left the boat at 10.35pm and headed to the harbour slipway."

"The hooter sounded at 10.41pm. I was off, swimming into pitch black, out of the harbour and powering towards the Welsh coastline. I felt so apprehensive about the night swim part, not knowing what was out there. But as soon as I was in pitch black, I saw streams of plankton in a vast array of colours, which was incredible and strangely comforting – until I got stung on the cheek by a jellyfish about an hour in. The joys of sea swimming!"

Phil swam from feed to feed, then around eight hours later the sun began to rise. "I was sure glad of the warmth, and it was one hell of a sunrise. Simply beautiful and a huge boost knowing the night swim was over. Better still, time wise I would be around half way through and I had not yet been sick!"

Although Phil can't remember many details from the next eight hours, there was one incredible moment when he was joined by a pod of dolphins that swam with him for 10 minutes.

"The coast was getting closer, very slowly but definitely closer. I had one of my crew swim alongside for a bit, which was a massive boost for this last part of the swim. The sun was setting, and as I swam into the dark it just got harder and harder. I had zero energy left in the tank."

"Suddenly, I could hear waves crashing on the rocks and I realised I was there. What a relief!" On his second attempt, Phil managed to stand. "I stood with arms in the air. The hooter sounded to signal the end of the swim. Twenty one hours and 50 minutes of constant breaststroke. One sunset, one sunrise. I had started in darkness and ended in darkness. I became the fourth person to complete this swim and the first ever with breaststroke."

Back on the boat, Phil's crew decided he needed help, so they called an ambulance. "I was blue-lighted to hospital to be monitored and tested for a further eight hours. I didn't care; I was in good hands and I was a Channel swimmer!"

On June 6, 2022, Bárbara Hernández Huerta of Chile completed the 4-Islands San Francisco Marathon Swim (14-mile/22.5-km) in 07:24:54 (unofficial time). Bárbara had some adverse conditions at the start with vessel traffic, wind, and chop and then dropping air temperatures under 13C; water temperatures held steady between 13.7-15.5C. Once complete with the course, Bárbara re-entered the water to complete 8hours to satisfy the requirements for a future swim.

3 Rocks – 6.2 Miles (10 Km)
3 ROCKS
3 Rocks, aptly named for the waypoints of this course, is a true 10-km (6.2-miles) marathon swim in the San Francisco Bay.
Starting southwest and directly adjacent and west of Anita Rock on Crissy Field South Beach, the course requires you to swim across the flooding central bay to Harding Rock. After rounding the north side of the Harding Rock buoy, you swim east, cross-current, to Alcatraz ("The Rock"). After rounding the island on the east/southeast, you swim southwest, rounding the north and west sides of Anita Rock and complete the course by clearing the water on the beach adjacent to Anita Rock. The shortest distance of this course is 10-Km (6.2-miles).
The course may be swum clockwise or counterclockwise and all waypoints of the course must be adhered to in strict accordance in order for the swim to be ratified.

Congratulations to Abigail Bergman who completed the 21-mile Circumnavigation of San Francisco swim on June 14, 2022 in a time of 05:50:19 (pending ratification).
Abby had swell & chop conditions outside the Gate but as a rough-water ocean swimmer she handled it with ease. Water temperatures ranged from 53.5F at the start to 63.8F at the finish.
Abby's swim was observed by Zach Margolis for the NCOWSA and she was crewed by Kerianne Brownlie.
Well done, Abby!

On April 9, 2022, Rocio Mora of Costa Rica completed the Round-Trip Angel Island (10-mile/16.1-km) in 5:23:01 (unofficial time).
Upon ratification, this attempt will become a new women's (non-asterisk) course record, bettering Erika Shanahan Gliebe's 2020 official course record of 5:30:01 by 7 minutes.
Due to current considerations, Rocio's attempt took place at night under chilly yet ideal conditions: The winds were negligible, air temperatures were below 50°F/10°C, there ... Δείτε περισσότερα

SUMMER 2022 - 16 KM FROM ITALY TO FRANCE
REGISTRATIONS NOW OPEN FOR 2022 SWIM SEASON (MAY TO SEPTEMBER)
Swim across the Bonifacio channel in this 16K lifetime achievement crossing from Sardinia (Italy) to the French coast of the island of Corsica! You'll start on the beach of Rena Bianca, Sardinia (Italy) and cross to the beach of Punta Sperone, Corsica (France) across a stretch of blue Mediterranean Sea linking the two. We have helped the first American, Mexican, and Brazilian make this crossing, as well as the world record holder. Join the ranks!
Your crossing will be overseen by Italian captain Tommaso Munatoni. In order to consider booking the swim crossing the Bocche di Bonifacio, please plan accordingly to allow 5 days, during which you will stay in the beautiful town of Santa Teresa di Gallura on Sardinia. Be aware weather and sea conditions may vary suddenly, requiring adjustment of the date of the swim.
While there, practice swims are encouraged and we will provide you with training guidance and places to swim.

ACAPULCO CHALLENGE "THE QUEEN TEST"
GRAND FUND SWIMMING
6.4 KM, 11 KM, 22 KM AND 33 KM.
1990-2019
Who we are:
We are a group of swimmers passionate about deep-sea swimming, being pioneers of this discipline in Mexico with 29 consecutive years of organizing the Challenge, non-profit.
Innovators of long distances such as 22 and 33 km, including the internationally recognized night swim.
Objective:
Promote open water swimming in Mexico by organizing a unique event with the best safety conditions for swimmers, offering each of them a guide boat that accompanies them during their journey.

Marathon Swimmers Federation Toughest 13 swim
AUSTRALIAN LONG DISTANCE SWIMMING FEDERATION
Marathon swimming event course 31/01/2015
Swimming from New Norfolk Bridge to Bridgewater Bridge
1. Stay on town side until apex of first bend.
2. Cross to other side.
3. Stay on eastern side until bend before Boyer.
4. At Boyer bend across to the Western side.
5. Stay on the Western side until the bend before Bridgewater Bridge.
6. Move into mid channel.
Stay away from those areas in satellite picture that show sediment deposit. This is where the river is moving at its slowest and deposits sediment that it cannot hold in suspension at a lower speed.
START
Swimming from Bridgewater Bridge to Tasman Bridge
1. Head to Green Point.
2. Stay mid navigation channel between red and green markers all the way to the oil wharf.
3. Head towards the old concrete butt from original floating bridge on the Western shore.
Take the shortest route from oil wharf regardless of incoming or outgoing tide. There are eddies along the Western shore near the rowing club that can go either way.
Best to keep clear.

SPAR HERO OF THE WEEK

Western Cape, South Africa (23 March 2021) – Carina Bruwer has become the first person to swim across Walker Bay in a time of 6:36 in aid of the Tribuo Fund and the performing arts sector of South Africa.

She did so according to English Channel swimming rules, wearing only a costume, cap and goggles, and starting and finishing on dry land, without any contact with the support boat

Congratulations to Zach Margolis of San Francisco, Calif. for becoming the 5th person to swim the full width of Santa Monica Bay (27 miles). Zach swam through the night from Point Dume (Malibu) to Rocky Point (Palos Verdes) in 13 hours, 28 minutes, per MSF observer Amy Gubser. Supporting Zach were pilots Mike Chandler and Greg Gubser and crew Mandy Hoskinson. Great work, Zach!

"Courtney Moates Paulk Achieves History's First Double Triple Crown"

Courtney Moates Paulk completed a two-way crossing of the English Channel in 27 hours 36 minutes on August 3rd. She is now the first person in history to have completed a Double Triple Crown.

A Double Triple is a double accomplishment of the traditional Triple Crown of Open Water Swimming where an open water swimmer must complete a solo two-way crossing of the English Channel, a solo two-way crossing of the Catalina Channel and a double circumnavigation swim of Manhattan Island.

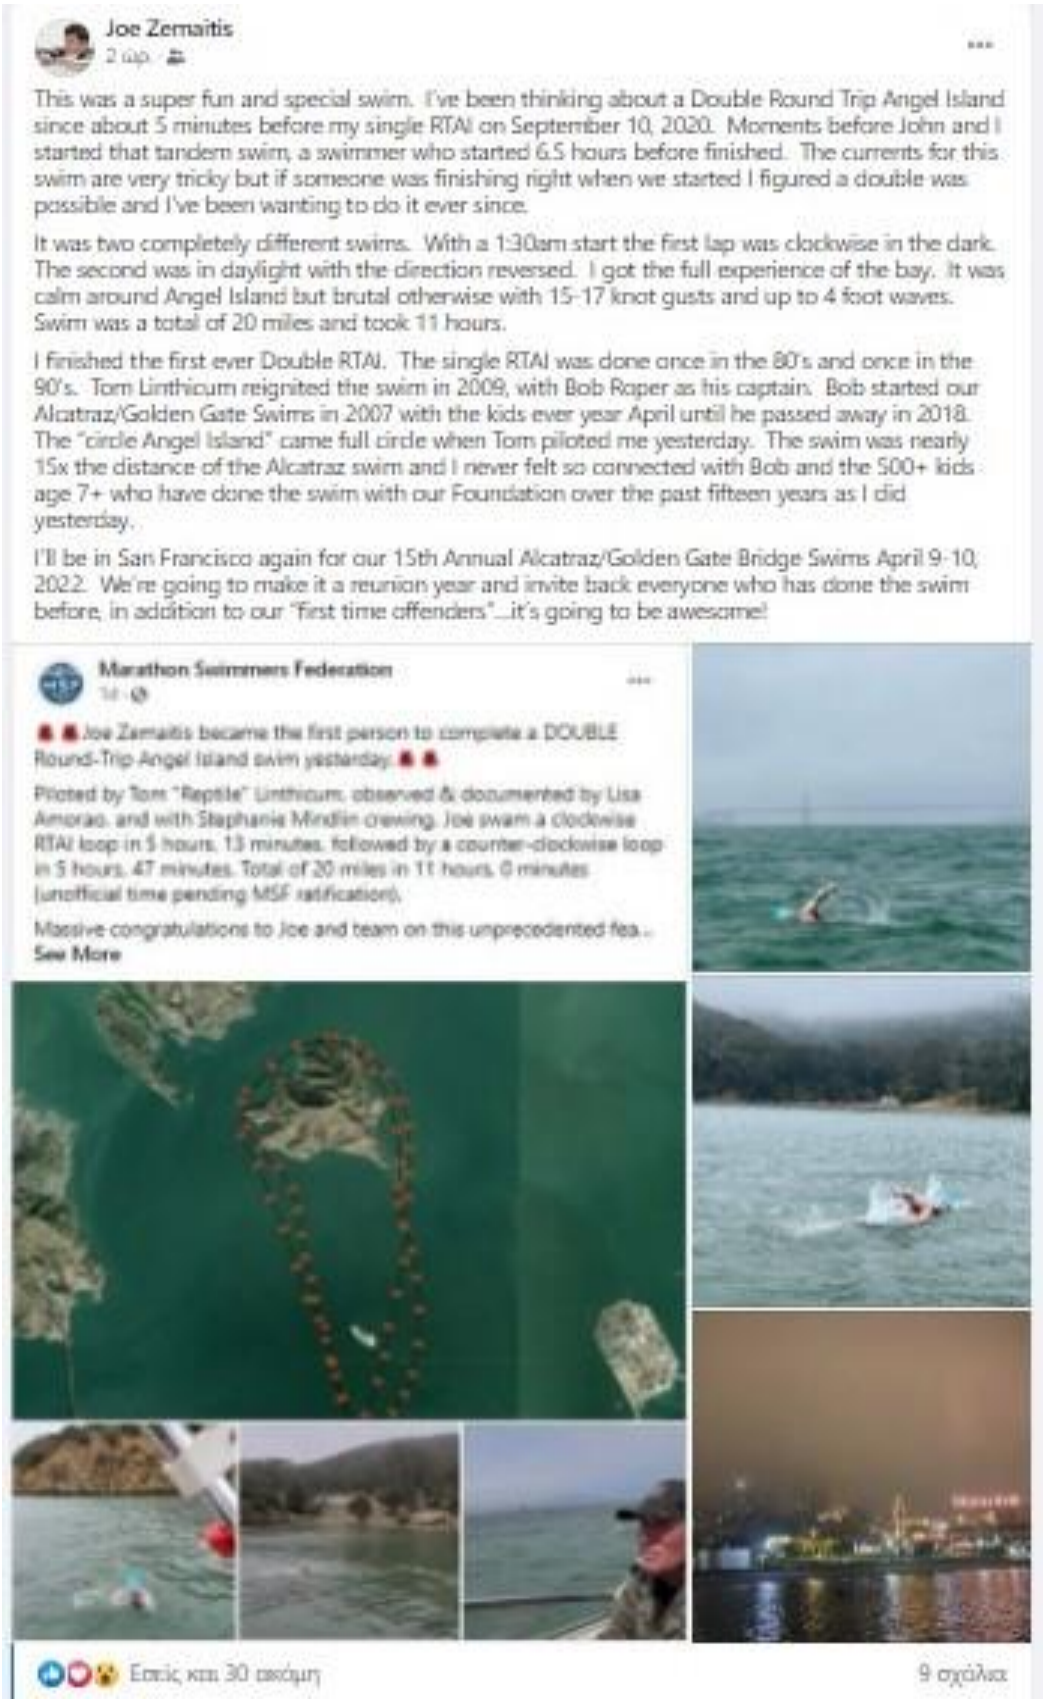
116.USA 32 Km 1-9-2021 double Angel island round



Joe Zemaitis
2 ώρ.
This was a super fun and special swim. I've been thinking about a Double Round Trip Angel Island since about 5 minutes before my single RTAI on September 10, 2020. Moments before John and I started that tandem swim, a swimmer who started 6.5 hours before finished. The currents for this swim are very tricky but if someone was finishing right when we started I figured a double was possible and I've been wanting to do it ever since.
It was two completely different swims. With a 1:30am start the first lap was clockwise in the dark. The second was in daylight with the direction reversed. I got the full experience of the bay. It was calm around Angel Island but brutal otherwise with 15-17 knot gusts and up to 4 foot waves. Swim was a total of 20 miles and took 11 hours.
I finished the first ever Double RTAI. The single RTAI was done once in the 80's and once in the 90's. Tom Linthicum reignited the swim in 2009, with Bob Roper as his captain. Bob started our Alcatraz/Golden Gate Swims in 2007 with the kids ever year April until he passed away in 2018. The "circle Angel Island" came full circle when Tom piloted me yesterday. The swim was nearly 15x the distance of the Alcatraz swim and I never felt so connected with Bob and the 500+ kids age 7+ who have done the swim with our Foundation over the past fifteen years as I did yesterday.
I'll be in San Francisco again for our 15th Annual Alcatraz/Golden Gate Bridge Swims April 9-10, 2022. We're going to make it a reunion year and invite back everyone who has done the swim before, in addition to our "first time offenders"...it's going to be awesome!
Marathon Swimmers Federation
Joe Zemaitis became the first person to complete a DOUBLE Round-Trip Angel Island swim yesterday!
Piloted by Tom "Reptile" Linthicum, observed & documented by Lisa Amorao, and with Stephanie Mindlin crewing. Joe swam a clockwise RTAI loop in 5 hours, 13 minutes, followed by a counter-clockwise loop in 5 hours, 47 minutes. Total of 20 miles in 11 hours, 0 minutes (unofficial time pending MSF ratification).
Massive congratulations to Joe and team on this unprecedented fea...

SUNDAY 5 SEPTEMBER 2021
The Jubilee River Swim was dreamt up in a pub in 2011, and has since become one of the countries favourite swims. The man made flood relief channel between Boulters Lock nr Maidenhead and Pococks Lane in Eton is free from craft and is a convenient length at 10km! There are three weirs along the rivers length that break up the swim nicely, and you'll find our feed stations here.
Back for 2021 due to public demand – the relay option, teams of 2, 3 or 4 swimmers welcome.

Capri-Napoli is one of the most fascinating and difficult competitions in the world. Since 1992, holds a long distance world title, now the crossing swimming race Capri-Napoli is a "FINA World Grand Prix" leg over a distance of 36 km as the crow file distance.
The Gulf of Naples is the fascinating "race field" of this contest starting normally from Marina Grande at Capri (with only four exceptions: 1978 from Marina Piccola, 2010 from the Blue Grotto and in 1981 and 2017 with a race course below the coast in Naples for the prohibitive weather-marine conditions) and finishing to the sea-front in Naples assigning the world title, in a single race, until 1992. WHAT'S THE CHALLENGE?
Swimming around a nuclear power plant?! Sounds threatening, but don't jump to conclusions! We have studied the issue well and are confident that it is not only perfectly safe, but also very cool! The radiation background in the city and in the reservoir is constantly monitored, and it is much lower here than in Moscow!
That being said! The purity of water is better than any words evidenced by the richest underwater world of the reservoir, including not only trout and sturgeon, but also
The reservoir is surrounded by forests, which, just by the beginning of October, will be painted in bright autumn colors and appear in their most elegant look.
And this is the unique feature of the start: this is not an extension of the summer for which we are going to the seas, it is the warmest Indian summer that you can find!

Quick facts
Manhattan is the most densely populated of New York City's 5 boroughs. It's mostly made up of Manhattan Island, bounded by the Hudson, East and Harlem rivers. Among the world's major commercial, financial and cultural centers, it's the heart of "the Big Apple." Its iconic sites include skyscrapers such as the Empire State Building, neon-lit Times Square and the theaters of Broadway.

16. EPILOGUE **p. 707-708**

Goal: For free all for the community. Constant updating of the 7 elite Marathon swimmers lists (Club members)

WHAT NEXT has to be done?

1.**Continue updating** this NEW Marathon swim Database, via 'Global LEANDROS Marathon swim'' ranking

2.**Bild a NEW Marathon swim DATABASE from scratch.** 10k OWS races is a question if it would be included, because it is an Olympic distance. So 10k OWS races are a special numerus category (almost equal than all the rest Marathon races) and

3.**Judging criteria better to remain the same**.

Happy OWS every next NEW YEAR!

(Included a part from a poet of the Greek Nobel prize holder **Odysseas Elytis**)

The best are coming!!!

Global ‘’LEANDROS ‘’ Marathon swim DATABASE 1875-2023.

The only worldwide updated DATABASE (+37%).
